RAIN FORESTS

Rain forests are important places. They get about 400 inches of rain a year and the temperature rarely falls below 80° Fahrenheit. An acre may contain over 80 different kinds of plants and trees, some of which are not found anywhere else! These plants provide housing and food for many species of animals. In fact, of the five million separate kinds of life on Earth, over half can be found in the rain forests, and these are just the ones we know about. Imagine how much more there is to be discovered in the rain forests!

OFFER EXPIRES SEPTEMBER 30, 1995!

EDITOR'S NOTEBOOK

Dear Archie Readers,

Here's an upcoming event which unfortunately most of you will not be able to attend. But here it is anyway, for the lucky ones who can.

FILMART'S CARTOON WORLD GALLERY in Huntington, New York will kick off a week-long celebration of ARCHIE COMICS beginning Saturday and Sunday, September 16th and 17th, 1995. Featured will be classic Archie comic art, memorabilia and animation cels.

The big bonus will be personal appearances by legendary Archie artists Dan DeCarlo, Stan Goldberg and Joe Edwards. It's also very possible that less legendaries such as YoursTruly might be there, along with some other surprise guests.

For more information and times call 1-800-ART-CELS.

If you missed this column last month, or if you forgot, here's a reminder. Archie Comics will be paying cash prizes for the best reports submitted, entitled "My Summer Vacation." Winning reports will appear on Archie Club pages in upcoming issues. First prize will be $15.00.

So there I was first time on the highest of high dives, my friends hangin' out down below. Boy was I nervous.

I mean I didn't want to end up being pool-side pizza.

Then Cap'n Crunch shows up with my favorite cereal, Cap'n Crunch's Peanut Butter Crunch.®

That in your face peanut butter taste and the Cap'n gave me all the confidence I needed.

No fear here! I did a total freefall. my friends go wild. Cool!

You and the Cap'n make it happen!
